
MACDONALD MINES EXPLORATION LTD.

Unaudited Condensed Interim Financial Statements

September 30, 2016

(Expressed in Canadian Dollars)

Responsibility for these Unaudited Condensed Interim Financial Statements:

The accompanying unaudited condensed interim financial statements of MacDonald Mines Exploration Ltd. (the "Company") are the responsibility of the Board of Directors ("Board") and have been prepared by management, on behalf of the Board.

In management's opinion, these unaudited condensed interim financial statements are in full compliance with International Accounting Standard 34 - Interim Financial Reporting using accounting policies consistent with International Financial Reporting Standards appropriate in the circumstances. Management has established internal controls over the financial reporting process which are designed to provide reasonable, but not absolute, assurance that relevant and reliable financial information is prepared.

The auditors of the Company have not performed a review of these unaudited condensed interim financial statements.

MacDonald Mines Exploration Ltd.

Notes to Financial Statements

September 30, 2016

(Expressed in Canadian Dollars)

1. Nature of Operations of the Company

MacDonald Mines Exploration Ltd. (the "Company") is a publicly traded company actively engaged in the acquisition, exploration and development of mineral properties. The Company's registered office is Suite 520, 141 Adelaide Street West, Toronto, Ontario, Canada, M5H 3L5. Since November 1, 2011, the Company is continued under the Canadian Business Corporations Act. Prior to November 1, 2011 the Company was continued under the Quebec Business Corporations Act (formerly, Part 1A of the Companies Act (Quebec)). The Company's Class A common shares are listed on the TSX Venture Exchange ("TSX-V") under the ticker symbol "BMK". The Company's functional and presentation currency is Canadian Dollars.

The Company is currently in the exploration stage and has not commenced commercial operations. As at September 30, 2016, the Company had a working capital deficiency of \$938,346, an accumulated deficit of \$56,180,451 and was not yet generating operating cash flows. As such, there is significant doubt regarding the Company's ability to continue as a going concern.

In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to, twelve months from the end of the reporting period. The Company's ability to continue operations and fund its mining interest expenditures is dependent on management's ability to secure additional financing. Management is actively pursuing such additional sources of financing, and while it has been successful in doing so in the past, there can be no assurance it will be able to do so in the future. Accordingly, the financial statements do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and therefore to realize its assets and liquidate its liabilities and commitments in other than the normal course of business and at amounts different from those in the accompanying financial statements.

2. Significant Accounting Policies

These unaudited condensed interim financial statements have been prepared in accordance with, and are in full compliance of, International Accounting Standard 34 - Financial Reporting ("IAS 34") using accounting policies consistent with IFRS as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). These unaudited condensed financial statements do not include all of the information required for annual financial statements and therefore should be read in conjunction with the Company's audited financial statements for the year ended December 31, 2015. The accounting policies inherent within these unaudited condensed interim financial statements are consistent with those noted within the audited financial statements for the year ended December 31, 2015 and those that the Company expects to adopt for its audited financial statements for the year ending December 31, 2016.

Basis of Presentation

These financial statements have been prepared on a historical cost basis except for financial instruments classified as available-for-sale which have been measured at fair value. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

The financial statements were approved by the Board of Directors on November 4, 2016.

Significant accounting judgments and estimates

The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the financial statement date and the reported amounts of revenues and expenses during the year. On an ongoing basis, management evaluates its judgments and estimates. Management uses experience and other factors it believes to be reasonable as the basis for its judgments and estimates. Actual results could differ from those estimates. These financial statements include estimates which, by their nature, are uncertain, the impacts of which are pervasive and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and also in future periods if it affects both current and future periods. Significant estimates and judgments include, but are not limited to, the provision for tax and penalties related to flow through expenditures previously renounced. (see note 14). The provision requires management to make judgments and estimates of the likelihood and amount of penalties to be paid.

MacDonald Mines Exploration Ltd.

Notes to Financial Statements

September 30, 2016

(Expressed in Canadian Dollars)

Significant accounting judgments and estimates - continued

- *Taxes.* Taxes payable and deferred income tax assets and liabilities requires management to make judgments in the interpretation and application of the relevant tax laws. The actual amount of taxes become certain only when filed and accepted by the relevant authorities.
- *Valuation of warrants and stock options.* Management makes certain estimates when determining the fair value of warrants and stock options awards, and the number of warrants and stock options that are expected to vest. For warrants issued, these estimates affect their amounts recognized either within assets or equity. For stock option awards, these estimates affect the amounts recognized in the statement of comprehensive loss.

3. Cash and Cash Equivalents

As of September 30, 2016, the Company held \$10,106 (December 31, 2015: \$31,019) in cash and cash equivalents and estimates that its fair value approximates the carrying value.

4. Marketable Securities

Marketable securities consist of available-for-sale equity securities over which the Company does not have significant influence or control. Unrealized gains or losses, other than permanent losses, are recorded as other comprehensive income or loss.

The following is a summary of the Company's marketable securities:

	September 30 2016	December 31, 2015
Equity securities	615,455	10,621
Share purchase warrants	-	3,845
	615,455	14,466

5. Exploration Expenditures

The following summarizes the amount spent and expensed for each of mineral properties and deferred exploration costs by location:

	September 30 2016	December 31, 2015
McFaulds Lake and area properties, James Bay Lowlands, Ontario, Canada	\$ 32,159,881	\$ 32,159,881
Bob Lake Property, Saskatchewan, Canada	1,563,968	1,563,968
Balance, at end of period	\$ 33,723,849	\$ 33,723,849

MacDonald Mines Exploration Ltd.

Notes to Financial Statements

September 30, 2016

(Expressed in Canadian Dollars)

5. Exploration Expenditures - continued

McFaulds Lake and Area Properties, James Bay Lowlands, Ontario, Canada

The Company has held property in this region of northern Ontario since 2004 and owns 100% of its ground subject to net smelter royalties ("NSR") on certain claims before the sale as described below.

On August 5, 2016, the Company entered into an agreement with Noront Resources Ltd. ("Noront") to sell 75% interest of certain lands in the property for a cash consideration of \$750,000 represented by the issuance of 2,318,393 common shares of Noront at a deemed price of \$0.3235 per share. The Company has a 25% carried interest in the property until such time as an Inferred Mineral Resource has been filed on the property for Noront in accordance with NI43-101, at which time ("the Notification Date") a Joint Venture shall automatically be deemed to be formed between Noront and the Company and shall promptly enter into a formal joint venture agreement.

The Company shall have twenty (20) business days following the Notification Date (the "Conversion Right Exercise Period") in which to make a one-time election to transfer its 25% carried interest in the Property to Noront in exchange for a 1% NSR on the property.

If the Company fails to exercise the Conversion Right within the Conversion Right Exercise Period, Noront shall have the option (the "Buy-Back Option"), exercisable for twenty (20) days following the expiry of the Conversion Right Exercise Period, to elect to purchase the Company's 25% carried interest in the Property for a purchase price of \$3,000,000 (the "Buy-Back Purchase Price"), payable in cash or Noront shares at the option of Noront.

Bob Lake Property, Saskatchewan, Canada

To acquire the property, the Company paid \$75,000, issued 2,850,000 common shares valued at \$194,000 and 300,000 now expired share purchase warrants.

6. Equipment

	Exploration Equipment	Furniture	Computer Equipment	Vehicles	Total
As at September 30, 2016:					
Cost	\$ 83,738	\$ 74,412	\$ 33,369	\$ 69,328	\$ 260,847
Accumulated depreciation	(78,392)	(74,412)	(33,369)	(69,328)	(255,501)
September 30, 2016, net book value	\$ 5,346	\$ -	\$ -	\$ -	\$ 5,346

	Exploration Equipment	Furniture	Computer Equipment	Vehicles	Total
As at December 31, 2015:					
Cost	\$ 83,739	\$ 74,412	\$ 33,369	\$ 69,328	\$ 260,848
Accumulated depreciation	(75,186)	(74,412)	(33,369)	(69,328)	(252,295)
December 31, 2015, net book value	\$ 8,553	\$ -	\$ -	\$ -	\$ 8,553

During the year ended December 31, 2015, the Company wrote down \$45,210 of fixed assets. The write down was due to the equipment no longer being in use, and thus the Company's recoverable amount was less than cost.

MacDonald Mines Exploration Ltd.

Notes to Financial Statements

September 30, 2016

(Expressed in Canadian Dollars)

7. Related Party Transactions and Balances

Parties are related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making operating and financial decisions. This would include the Company's senior management. Parties are also related if they are subject to common control or common significant influence. Related parties may be individuals or corporate entities. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties. They were no related party transactions during the nine months ended September 30, 2016.

Included in accounts payable and accrued liabilities is \$47,000 (2015: \$47,000) related to rent payable and a provision for \$60,000 relating to severance payments on termination of employment of the former CEO and CFO.

A loan owing to Energizer Resources Inc. (TSX: EGZ), a company related by common management, aggregating \$50,000 in a form of a short term loan. The loan is interest bearing at a rate of 5%, unsecured and due on demand. No amounts have been paid back as at September 30, 2016.

8. Capital Stock

Capital stock consists of an unlimited number of Class "A" common shares without par value.

Capital Stock Activity

There were no private placements completed during the nine months ended September 30, 2016 and the year ended December 31, 2015.

9. Stock Purchase Option Incentive Plan

The Company has a stock purchase option incentive plan (the "Plan") under which the directors may grant stock options to qualified directors, officers, consultants and affiliates. The maximum aggregate number of Class A Common Shares under option at any time cannot exceed 10% of the total issued number of shares. The exercise price of stock options is the greater of \$0.10 and the closing price of the Company's shares on the trading day preceding the date of the option grant. Options vest immediately for a term not greater than five years.

The following is a continuity schedule for each series of stock options outstanding at September 30, 2016:

Expiry Date	Exercise Price (\$)	Outstanding at December 31, 2015	Granted	Expired/ Exercised	Cancelled	Outstanding at September 30, 2016	Fair Value(\$)
February 16, 2016	0.15	9,835,000	-	-	(9,835,000)	-	-
March 17, 2016	0.16	605,000	-	-	(605,000)	-	-
July 19, 2016	0.15	1,750,000	-	-	(1,750,000)	-	-
March 19, 2017	0.12	495,000	-	-	-	495,000	50,490
April 3, 2017	0.17	3,525,000	-	-	-	3,525,000	512,535
February 20, 2018	0.10	4,495,000	-	-	-	4,495,000	227,899
July 9, 2018	0.10	600,000	-	-	-	600,000	11,340
		21,305,000	-	-	(12,190,000)	9,115,000	\$802,264

There were no stock options issued during the nine months ended September 30, 2016 and for the year ended December 31, 2015.

MacDonald Mines Exploration Ltd.

Notes to Financial Statements

September 30, 2016

(Expressed in Canadian Dollars)

10. Warrants

There were no warrants outstanding as at September 30, 2016 and December 31, 2015.

11. Loss Per Share

For the nine months ended September 30,	2016	2015
Numerator: Net income (loss) attributable to common shareholders - basic and diluted	\$ 726,186	\$ (1,047,272)
Denominator: Weighted average number of common shares outstanding - basic and diluted	302,743,080	302,743,080
Basic and diluted income (loss) per share	\$ 0.00	\$ 0.00

Stock options and warrants totaling 9,115,000 (September 30, 2015: 21,305,000) were excluded from the computation of basic and diluted loss per share as the potential effect was anti-dilutive.

12. Capital Management

The Company's capital is composed of share capital, reserves and deficit. The Company manages its capital within the following objectives:

(a) to ensure that there is sufficient financial flexibility to achieve the ongoing business objectives including ensuring that there is sufficient funds available, in order to support the acquisition, exploration and development of mineral properties; and

(b) to maximize shareholder return through enhancing shareholder value.

The Company's current properties are all at the exploration stage of development. The Company is dependent on external financing to fund its capital requirements. In order to carry out planned exploration and pay administrative costs, the Company will raise additional amounts as needed.

The Board does not establish quantitative return on capital criteria for management, rather it relies on the expertise of the Company's management to sustain future development. Management periodically reviews its capital management approach and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management for the nine months ended September 30, 2016. The Company is not subject to externally imposed capital requirements.

MacDonald Mines Exploration Ltd.

Notes to Financial Statements

September 30, 2016

(Expressed in Canadian Dollars)

13. Financial Risk Management

The Company's financial risk exposures and the impact on the Company's financial instruments are as follows:

(a) Credit risk:

The Company's credit risk is primarily attributable to cash and cash equivalents and accounts receivable. The Company has no significant concentration of credit risk arising from financial instruments.

(b) Liquidity risk:

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at September 30, 2016, the Company has a working capital deficiency of \$938,346. The Company has a cash balance of \$10,106 (December 31, 2015: \$31,019) and is insufficient to settle current financial liabilities of \$1,567,578 (December 31, 2015: \$1,568,059). All of the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms except for short term debt.

(c) Market risk:

Market risk is made up of interest rate risk, price risk and equity price risk.

Interest rate risk: The Company has cash balances and non interest bearing debt. The Company's current policy is to invest excess cash and cash equivalents in short term money market investments issued by highly rated entities. The Company monitors the investments it makes and is satisfied with the credit ratings.

Price Risk: The Company is indirectly exposed to this risk through the price of base metals. The Company monitors commodity prices to determine the appropriate course of action to be taken with respect to its mineral properties.

Equity Price Risk: This is defined as the potential adverse impact on the Company's earnings due to movements in individual equity movements in the level of the stock market. The Company closely monitors individual equity movements and the stock market to determine the appropriate course of action.

(d) Sensitivity Analysis:

Based on management's knowledge and experience of the financial markets, the Company believes that it is "reasonably possible" for the Company's marketable securities to move plus or minus 50%. If this were to happen, comprehensive income (loss) would be affected by approximately \$307,728.

14. Flow Through Provision

During the year ended December 31, 2015, the Company underwent an audit conducted by the Canada Revenue Agency ("CRA") for the calendar years 2010 to 2013. As a result of the audit, CRA has proposed an adjustment to the amount of qualifying expenditures that were renounced to the Subscribers aggregating approximately \$2,500,000. In addition, CRA has assessed additional Part XII.6 tax of approximately \$250,000 to the Company in connection with the shortfall.

Included in accounts payable and accrued liabilities as at September 30, 2016 is a provision of \$1,400,000 (December 31, 2015: \$1,400,000) representing the maximum amount of tax and penalties related to the 2013 shortfall in flow through eligible exploration expenditures. The Company does not intend to appeal the penalty and taxes imposed by CRA. The Company is evaluating the repayment terms.
